Labor Day in the United States is a holiday celebrated on the first Monday in September. It is a celebration of the American labor movement and is dedicated to the social and economic achievements of workers. It constitutes a yearly national tribute to the contributions workers have made to the strength, prosperity, and well-being of their country.

In many other countries (more than 80 worldwide), "Labour Day" is synonymous with, or linked with, International Workers' Day, which is observed on May 1.

## City Planner and Public Works Director Retire

### Public Works Director, Verne Taylor

After 20 years of service to the City, Verne Taylor has retired and is enjoying time with his grandbabies. He was a dedicated employee, who loved our City. His artful eye made projects in town unique. One small example is the foot bridges at Pioneer Park which were made from recycled railings from the old Pine St. Bridge. The City is reorganizing the Public

Works Department, so Verne's position will not be filled. Instead, Chris Shack is being promoted to Public Works Superintendent. This will allow him to take on some of Verne's responsibilities and still work out in the field with the crew. A new maintenance position will also be filled.

### City Planner, Cindy Siegfried

Cindy has worked with the City full time for the past 8 years, but worked here for many years prior in various part-time positions. She assisted the City on many important projects during the past 8 years, such as an updated Housing Element of the General Plan, Second Dwelling Units, and Design Guidelines. Her favorite projects included the KVMR/Theatre remodel and processing the application for the Inn Town Campground off Kidder Ct.

Amy Wolfson has been hired to fill the position of City Planner. She comes to us with a Bachelor of Science in Landscape Architecture from UC Davis. She has 10 years experience in planning working for both Yuba County and Nevada County and has lived locally for over 8 years. If you plan to remodel or renovate your home, remove trees or need approval for a new business sign, Amy is ready to assist with your project.

The buildings are reasonably priced, located in town, and have convenient parking. There is kitchen space for preparation of food and the facilities come with tables and chairs.

All rooms available are approximately 1,600 sq.ft. That's plenty of space for dining, dancing or just gathering.
